EXPERIENCE

Software Developer

MAXIO │ JAN 2025 - PRESENT

- Contributing to the architecture of a React-based **single-page application (SPA),** modernizing and unifying legacy systems.
- Contributing to **project scaffolding and developer tooling** to support a scalable and maintainable codebase.
- Improving **API integrations** between micro frontends and embedded applications.
- Building and refining UI components in **TypeScript, React, Tailwind,** and contributing to Maxio's design system.
- Enhancing developer experience by **refining build processes, linting, and testing workflows.**

Jr. Software Developer

MAXIO │ FEB 2024 - JAN 2025

- Built and documented **reusable design system components** for cross-platform consistency.
- Standardized **Design System documentation** to improve adoption and usability.
- Tackled UI bugs and improved user experience in legacy applications.

Content & Marketing Roles

MAXIO, │ 2015-2024
PEARSON,
LUMERIT EDUCATION,
COLLGEPLUS

- Led website strategy, SEO, and content development for maxio.com and pearsonaccelerated.com.
- Managed content creation and external contributors.
- Developed conversion-focused copy for landing pages, email, and blog posts.
